

10-2 Board of Regents Manual: Part Two: University Governance by the Board

10-2-1 General Responsibilities of Governance • 10-2-2 The Chancellor of the ENMU System •
 10-2-3 Advisory Search Committee for the System Chancellor • 10-2-4 Board Approval of Handbooks •
 10-2-5 Appointment and Promotion of Faculty • 10-2-6 Faculty Participation in University Governance •
 10-2-7 Faculty Leave with Pay • 10-2-8 Reviews by the Board of Grievances and Other Decisions • 10-2-
 9 Student Admissions, Fees and Scholarships • 10-2-10 Student Self-Government • 10-2-11 Professional
 Services • 10-2-12 Parking and Traffic Control • 10-2-13 Honorary Degrees and Honors

1. General Responsibilities of Governance. The Eastern New Mexico System (the System) is governed through a system of procedures and structures designed to provide for participation by and/or consultation with the entire System's community in the development of institutional policies and procedures. It is the responsibility of the Board of Regents to adopt policy for the System and individual campuses. The chancellor of the University System has responsibility to implement policy thus adopted through appropriate officers of the System administration and through appropriate representative bodies of the various constituencies that comprise the University System. The chancellor also has responsibility to recommend policies to the Board after consultation with the representatives of those constituencies affected by the policy. The development of policy is a responsibility shared by the administration of the System and the representatives of affected constituencies. The Board and the various constituencies comprising the System may also initiate the development of policies. The purpose of the consultative process is to ensure participation by the internal constituencies of the System in the formation of policies and procedures that affect the academic, administrative, and social and public service functions of the ENMU System as it seeks to fulfill its mission. [See AGP&P, 15-2.]

2. The Chancellor of the ENMU System.

- A. **Employment of the Chancellor by the Board.** The Board employs the chancellor of the System. The chancellor of the System also serves as the president of the Portales campus.
- B. **Delegation of Authority by the Board to the Chancellor.** The chancellor is the chief executive officer of the System to whom the Board delegates the authority and responsibility for managing, supervising and controlling the System, except for such matters as the Board reserves to itself. The chancellor and all other holders of the System positions are subject to the rules and regulations issued by the Board and to operating budgets approved by the Board. The chancellor or persons designated by the chancellor are responsible for naming persons to fill positions at the Portales campus. The rules and regulations for managing, supervising and controlling the ENMU System include the *Regents Manual*, faculty and staff handbooks, and such other rules and regulations as the Board may adopt or approve. The chancellor may reorganize the structure of the System subject only to the right of the Board to review the reorganization if the Board deems it appropriate.
- C. **Reporting by the Chancellor.** The chancellor alone reports directly to the Board. Other individuals and groups within the System, except those responsible for internal auditing, may approach the Board officially on University business only through the chancellor.
- D. **Duties and Powers.** The role of the chancellor of the System is one of creative leadership and therefore not to be described by a detailed list of specific duties. As the chief executive officer of the System, the chancellor is responsible to the Board for the functioning of the System administration and has the authority and responsibility necessary to direct the administration in carrying out the responsibility and authority delegated to the administration by these policies. All decisions and actions of the chancellor are subject to the right of the Board to intervene. This

right is rarely exercised. The magnitude and complexity of the operation of the System make it neither wise nor feasible for the regents to intervene in decisions and actions of the chancellor and those to whom the chancellor delegates responsibilities, except in the most unusual circumstances. Under the general authority granted to the chancellor of the System by the Board, the chancellor has duties and responsibilities including but not limited to:

- (1) Discharging primary responsibility for all the factors contributing to the quality of academic (teaching, research and public service) and support programs of the System.
 - (2) Maintaining general supervision of all relationships between students and the various levels of campus administration within the System. Such supervision includes but is not limited to admissions, registration and records, academic progress and advising, counseling, housing, scholarships and financial aid, student activities and services, placement, international students and the evaluation and certification of academic credit from other institutions.
 - (3) Directing financial management of the campuses and their component parts in conformity with the System management policies and practices. This function includes but is not limited to the preparation of budgets and legislative requests, assistance in legislative presentations, maintenance of financial records and accounts for activities of the campus, the receipt and expenditure of all campus funds, preparation of required financial reports and signing of contracts.
 - (4) Directing personnel administration including employment and termination, wage determination, assigning and reassigning administrative duties and conditions of employment for faculty and other employees of the System.
 - (5) Directing operation and maintenance of the physical plant, purchase of supplies and equipment and the maintenance of appropriate inventories and records of real and personal property under the jurisdiction of the System.
 - (6) Overseeing fund raising, intercollegiate athletics, auxiliary enterprises and alumni activities.
 - (7) Directing management of investments in accordance with the policies and procedures established by the Board.
 - (8) Serving as the primary spokesperson for the System to news media, constituent groups, government agencies, etc.
 - (9) Re-delegating authority for these operations on the branch community colleges of the System to the branch community college presidents, as appropriate.
- E. Removal of the Chancellor of the System. The relationship between the chancellor and the System is governed by the contract between them, and the chancellor may be removed only as stated in the contract.
- F. Acting or Interim Chancellor. In the event that the chancellor of the System is unable to fulfill the duties of the office, the Board will appoint an acting chancellor until the chancellor is able to resume the duties. If the chancellor is removed from office, resigns or retires, the Board will appoint an interim chancellor to serve until a new chancellor is selected.

3. **Advisory Search Committee for the System Chancellor.** It is customary and generally expected under affirmative action policies for an advisory search committee to be appointed to aid the Board in identifying and attracting the most promising candidates to fill the position of chancellor of the System.
4. **Board Approval of Handbooks.** Handbooks of faculty and staff and the delegations of the Board's authority contained in those handbooks shall be approved by the Board.
5. **Appointment and Promotion of Faculty.** Final authority for all matters relating to faculty status is delegated by the Board to the presidents of the Roswell Branch Community College, the Ruidoso Branch Community College and the Portales campus, subject to review by the Board. A faculty member on any campus who is denied tenure, probationary retention, promotion or leave may obtain a hearing before the Board to appeal the president's decision. Hearings shall be based on the record made in the faculty evaluation process and no new evidence shall be taken. The System follows the provisions outlined in the campus's faculty handbook, as that handbook may from time to time be amended. Annually the Board authorizes the chancellor of the System to issue/negotiate contracts with new and continuing faculty. The chancellor delegates authority to issue/negotiate contracts with new and continuing faculty at branch community colleges to the branch community college presidents.
6. **Faculty Participation in University Governance.**
 - A. **Faculty Senate.** The Faculty Senate (at Portales and ENMU-Roswell) or other appropriate faculty body (at ENMU-Ruidoso) are the primary vehicles for faculty participation in University governance. With respect to faculty participation in governance, the Board subscribes to the principles outlined in the 1986 "Statement on Government of Colleges and Universities" jointly formulated by the Association of American Professors, the Association of American Colleges and the Association of Governing Boards of Universities and Colleges.
 - B. **Budget and Planning Committee.** Faculty involvement in planning and budget matters primarily manifests itself through participation in the Budget and Planning Committee (on the Portales campus) or other appropriate consultative bodies on the branch community colleges. With respect to faculty participation in budget matters, the Board subscribes to the principles outlined in the 1972 statement of the American Association of University Professors entitled "The Role of the Faculty in Budgetary and Salary Matters."
 - C. **Evaluation of Administrators.** Faculty participation in the evaluation (and retention) of academic administrators is accomplished through their representation on a committee for the evaluation of administrators (on the Portales campus and ENMU-Roswell) or other appropriate consultative body (at ENMU-Ruidoso). With respect to the selection and evaluation of administrators, the Board subscribes to the principles outlined in the 1981 "Statement of Faculty Participation in the Selection and Retention of Administrators" of the American Association of University Professors.
7. **Faculty Leave with Pay.** Any kind of faculty leave with pay other than holidays and vacations must be in accordance with policies and procedures established by the Board. [See NMSA 1978, § 21-1-23 (1971).] The Board approves faculty leave with pay after receiving recommendations from the chancellor of the System or from the branch community college president through the chancellor.
8. **Reviews by the Board of Faculty Grievances and Other Decisions.** A grievance is an allegation by a faculty member that there has been a violation or improper application of the faculty handbook

or an allegation of improper, arbitrary or discriminatory application of law or of the System's rules or policies such as, for example, the campus's policies and practices relating to terms and conditions of employment as stated in a contract. Formal grievance procedures are set forth in the faculty handbook. The Board delegates authority to decide faculty grievances to each campus president. Any faculty from the ENMU System may appeal a decision to the Regents once the campus appeal process has been concluded. Where the handbooks or other rules or regulations of the System allow an appeal of a decision to the Board, review or ratification by the Board of decisions or actions taken by others within the System or a hearing before the Board, the Board's rules of procedure for the appeal, review, ratification or hearing are as follows, except as otherwise provided by law or this Manual.

- A. The Board's rules of procedure for appeals shall comply with the System's Open Meetings policy.
 - B. The Board shall decide based on the written records of any previous hearings or evaluations regarding the action under review and on oral argument by the parties or their representatives to the Board. No witnesses may testify before the Board and no written evidence may be submitted. The Board may allow submission of written memoranda from the parties. The Board is not required to follow court procedure. If legal counsel is utilized by the Board in the course of the review or ratification, the Board shall be represented and advised by the University counsel unless such representation is ethically impermissible.
 - C. The Board may decide to affirm, reverse or modify the decision under review.
 - D. The decision of the Board shall be forwarded to the chancellor of the System within fifteen (15) days of the completion of the hearing. The president of the Board shall forward the Board's decision to the parties.
 - E. Upon the request of either party, the president of the Board, prior to or after convening the Board to review the grievance has the authority to request that appropriate individuals discontinue or postpone any action threatening irreparable harm pending final disposition of a review.
 - F. Written notice of the time and place of the hearing, a copy of these procedures, the records of all previous hearings and other records and documents deemed relevant by the president of the Board shall be provided to each party and to the other regents by the chancellor's office at least seventy-two (72) hours before the hearing.
- 9. Student Admissions, Fees and Scholarships.** The Legislature has expressly directed the Board to take the following actions after reviewing recommendations from the Portales campus president and the branch community college presidents:
- A. Prescribes the terms and conditions on which students shall be admitted. [See NMSA 1978, § 21-1-1 (1997) and § 21-3-7 (1899), made applicable by § 21-3-30 (1927).]
 - B. Prescribes matriculation fees and tuition fees; grants free scholarships to New Mexico residents by waiving the matriculation fee or tuition and fees, or both and establishes athletic scholarships by waiving tuition and fees subject to statutory limits on the number of athletic scholarships and on the percentage of those that may be granted to out-of-state residents. [See NMSA 1978, §§ 21-1-2 (2000) through 21-1-4.1 (1991) and 21-1-6 (1993), made applicable by § 21-3-30 (1927).]

- 10. Student Self-Government.** The Board delegates to the students of the ENMU System the responsibility for their self-government, which shall be in accordance with applicable law and such rules and regulations as the Board issues.
- 11. Professional Services.** Upon recommendation of the chancellor of the System, the Board approves the selection of legal counsel, architect and external auditor for the System and the consultant to the System on employee benefits.
- 12. Parking and Traffic Control.** The Board has parking and traffic control on ENMU System property and may employ and assign duties of campus police or safety officers. [See NMSA 1978, §§ 29-5-1 through 29-5-3 (1953 amended through 1997).] Ordinarily, city and county ordinances do not apply to System property in the absence of joint powers agreements or other contractual arrangements. However, state criminal laws apply on System property.
- 13. Honorary Degrees and Honors.** Honorary or posthumous degrees or honors are awarded upon approval by the Board after receiving recommendations from the appropriate committees and groups of the requesting campus.

Approved by the Board of Regents on November 17, 2005.

Amended version approved by Board of Regents on September 26, 2014.

Amendments approved by Board of Regents on December 14, 2018.
