3. **Administration.** The president of the University shall have full authority to manage and administer the intercollegiate athletics program. The president shall delegate authority to a director of Athletics for the day-to-day operation of the department. For day-to-day operations of the unit, the director of Athletics reports to the University president. The Department of Athletics Policies and Procedures Manual contains additional department procedures which implement the above policies.

Coaches and other personnel shall be required by the terms of their employment contracts to manage their programs in compliance with all applicable laws and regulations and shall be subject to disciplinary action for failure to comply. Coaches and other personnel shall receive regular training in relevant laws and regulation.
5. **Sanctions.**
  - A. As is true for all students, the president of the University has the right to impose sanctions, up to and including suspension or expulsion of student-athletes from the team or university, for alleged violations (or conviction) of federal, state, or local statutes to protect the image and integrity of the athletics program and the University.

- B.** The head coach, at their discretion, may subject an athlete to sanctions, up to and including suspension from play for one game for violation of established team, department, or university codes of conduct or for violation of state or local statutes without prior authorization of the president or director of Athletics. Further sanctions may be taken by the director or the president, if warranted.
- C.** The student athlete has the right to file an appeal for sanctions through the student-athlete grievance procedure.
